### FUND PURPOSE

Following the increase in violence against the API community, leaders of activists and influencers formed a committee and partnered with GoFundMe.org to identify and support local, grassroots nonprofit organizations across the United States that are working to uplift, and empower the API community, while also driving lasting social change for equality.

The charitable organizations selected are then vetted and, if clear, approved by the GoFundMe.org board to be a grantee.

“I want to live in a world where no one has to fear being attacked simply for who they are. Together we can build a better world for future generations”
